NOTES ON DATA AND THE NJSDC/BIDC

The 1990 Census counts presented here are based on the PL94-171 (reapportionment/redistricting) data released on January 24, 1991. They are subject to possible corrections for overcount or undercount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The NJSDC/BIDC

This report was prepared by the New Jersey State Data Center/Business and Industry Data Center (NJSDC/BIDC). The NJSDC is a cooperative project of the State of New Jersey and the U.S. Bureau of the Census. Serving data users in the public, private, and academic sectors, the NJSDC has three main objectives:

- to expand access to and use of census and other statistics
- to provide technical assistance and analytical support in the use of these statistics
- to provide user training on timely, census-related topics.

The New Jersey BIDC is an expansion of the SDC program designed to meet the growing data needs of the economic development community.

The NJSDC/BIDC consists of a network of over 100 state, county, regional, and local agencies. The lead agency is housed within the Division of Labor Market and Demographic Research, New Jersey Department of Labor. For a complete list of the NJSDC contacts, write to: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, New Jersey 08625-0388.

A variety of statistical reports from State and Federal agencies may be accessed through the NJSDC/BIDC network. Most statistics are from the U.S. Bureau of the Census' regular and special censuses and surveys. The NJSDC will publish New Jersey data from the 1990 Census of population and housing when they are available on a flow basis. Data from the U.S. Bureau of Labor Statistics, Bureau of Economic Analysis and the State and sub-state demographic and economic data prepared/compiled by the New Jersey Department of Labor are also available through the NJSDC/BIDC.

These data are made available in either printed reports, on computer tapes, diskettes, microfiche, and/or through an electronic bulletin board. NJSDC Electronic Bulletin Board (NJSDC EBB) users have access to up-to-date publicly available data for New Jersey in an electronic format. For more information on the NJSDC EBB, contact: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, NJ 08625-0388.

A quarterly NJSDC/BIDC newsletter (*Garden State Data News*) contains information on data releases (including a brief summary of the data), user services, training workshops, conferences, and other relevant items.

The Report

This report presents New Jersey resident population by county and municipalities based on the 1980 and 1990 Censuses. Changes between 1980 and 1990 (number, percent, and annual growth rate) are also included.

In addition to the printed report, these data are also available through the NJSDC EBB for subscribers (see the NJSDC/BIDC description), and on diskette for a fee upon request.

PL94-171 Data

The objective of the PL94-171 data is to meet the requirements of Public Law 94-171. This law, enacted in 1975, requires the U.S. Bureau of the Census to provide redistricting data in a geographic format requested by state governments. It specifies that within a year following Census Day (by April 1, 1991), the U.S. Bureau of the Census must send to the governor and the legislature of each state the population data they will need to redraw districts for their state legislatures.

To meet the legal requirement, the U.S. Bureau of the Census established a voluntary program to allow states to receive data for voting districts (e.g., election precincts, city wards) in addition to standard census geographic areas such as counties, cities, census tracts, and blocks.

The 1990 Census PL94-171 files contain a count of all persons and all housing units in specified geographic areas. They also provide a race count (five race categories) and a count of all persons of Hispanic origin and persons 18 years old and over of Hispanic origin. In addition, data are provided for all persons not of Hispanic origin and persons 18 years old and over not of Hispanic origin by race (five race categories). The detailed PL94-171 data for New Jersey counties and municipalities are published by the NJSDC as NJSDC-PH90-1.

The PL94-171 data for all geographic areas are available for review at the State and Newark Public Libraries. The county affiliates of the NJSDC have all the PL94-171 data for all of their respective geographic areas. (For a list of the county affiliates, contact: New Jersey State Data Center, New Jersey Department of Labor, CN 388, Trenton, NJ 08625-0388.)

Definition

Resident Population - Resident population includes those residing in New Jersey but excludes other American citizens living overseas.
